

Building & Construction

RDA Bulk Packaging Ltd has been supplying the Building & Construction sector with FBCs (Bulk Bags) for over 22 years

Welcome to RDA Bulk Packaging Ltd

We are a privately owned company that has been supplying FIBC's (Flexible Intermediate Bulk Containers - commonly known as Bulk Bags) to the Building & Construction sector for over 22 years.

Bulk Bags can be used for the transportation of the following products:

- Sand
- Chippings
- Decorative Aggregates
- Ballast
- Gravel
- Top soil and many more...

After over 2 years of development work and testing with our factories we are pleased to be able to offer a range of bulk bags which have a 30% recycled content by weight. These bags are manufactured, tested, meet the requirements of ISO and are compliant with the UK Plastic Packaging Tax. Request a quote today.

RDA offers a number of off-the-shelf stock options for immediate delivery.

The most common type of bulk bags used in this sector are open top and flat base, these are single-trip with a 1000kg safe working load. These bags have four corner loops for lifting. There is also an option to add tunnel lifting sleeves. The tunnels allow a forklift driver to pick up bags without having to leave the cab of their vehicle.

Standard 4 Loop Lift

4 Loop Lift Plus Tunnel Lift

All our bags are 100% recyclable
