

Building & Construction

RDA Bulk Packaging has been supplying the Building & Construction sector with FIBCs (Bulk Bags) Since 1999

Welcome to RDA Bulk Packaging

We are a privately owned company that has been supplying FIBC's (Flexible Intermediate Bulk Containers - commonly known as Bulk Bags) to the Building & Construction sector Since 1999.

Bulk Bags can be used for the transportation of the following products:

- Sand
- Chippings
- Decorative Aggregates
- Ballast
- Gravel
- Top soil and many more...

After over 2 years of development work and testing with our factories we are pleased to be able to offer a range of bulk bags which have a 40% recycled content by weight. These bags are manufactured, tested, meet the requirements of ISO and are compliant with the UK Plastic Packaging Tax. Request a quote today.

RDA offers a number of off-the-shelf stock options for immediate delivery.

The most common type of bulk bags used in this sector are open top and flat base, these are single-trip with a 1000kg safe working load. These bags have four corner loops for lifting. There is also an option to add tunnel lifting sleeves. The tunnels allow a forklift driver to pick up bags without having to leave the cab of their vehicle.

Standard 4 Loop Lift

4 Loop Lift Plus Tunnel Lift

All our bags are 100% recyclable

Product Range: **RDA can supply Bulk bags** **manufactured from...**

- o Uncoated fabric from 110gsm to 245gsm (grams per square metre).

What RDA can do for you...

- o Consistently supply a fully certified quality product.
- o Offer a competitive price.
- o Offer a complete inventory management system for all your Bulk Bag requirements.
- o Hold up to 6 months of your required stock in our warehouses; reducing lead times and helping with your cash flow.
- o Allocate an account manager for your business who can be contacted at any time by phone, email or via an arranged personal visit.
- o Provide excellent service.

Facilities and Partnerships

- o RDA operates from offices in Gloucestershire, United Kingdom and Indore, India.
- o RDA distributes from warehousing facilities in Worcestershire and Staffordshire, UK and Dublin, Ireland.
- o RDA has developed a long-term relationship with its distribution partners to further improve on our already excellent delivery service which allows us to offer a tracked economy or priority delivery service for any number of pallets.
- o RDA utilise a number of ISO Certified Manufacturing facilities in India. Each of which also holds a valid certificate for the manufacture of bulk bags from either Labordata in Germany or Cotecna and The Indian Institute of Packaging in India.
