RDA Bulk Packaging has been supplying the
Agriculture sector with FIBCs (Bulk Bags) Since 1999

Welcome to RDA Bulk Packaging

We are a privately owned company that has been supplying FIBC's (Flexible Intermediate Bulk Containers - commonly known as Bulk Bags) to the Agriculture sector Since 1999.

Bulk Bags can be used for the transportation of the following products:

- Animal Feed/Supplements
- Seed
- Root Crops
- Agri Waste & Recycling
- Fertiliser and many more...

After over 2 years of development work and testing with our factories we are pleased to be able to offer a range of bulk bags which have a 40% recycled content by weight. These bags are manufactured, tested, meet the requirements of ISO and are compliant with the UK Plastic Packaging Tax. Request a quote today.

RDA offers a number of off-the-shelf stock options for immediate delivery.

From Animal Feed to Fertiliser, bulk bags are commonly used across the Agriculture sector. Many bulk bags for the Agriculture sector come with various filling, top closure and discharge options, which is important as often the product inside needs to be kept dry and clean.

All our bags are 100% recyclable
